

In its 32nd year of publication, 'Indian Architect & Builder' magazine represents the professionals from the building and designing industry. With a readership of over 3,00,000, IA&B is also involved with various events and causes to promote and develop a sensitive and effective architecture community in India and its Subcontinent. The team at IA&B aims at providing its readers with up-to-date information on technological and design innovations to align with their practices. We strive to introduce new talent through our regular features in sync with our motto of 'EXPLORE.' Join us, as we continue our exploration of the designing world, its people, places and progress associated with it.

As an architecture magazine, IA&B has one of the most enthusiastic, energetic and Experimental content. As one of the oldest architecture journals in circulation in India, it stays thoroughly young at heart. For a magazine with conservative and ethical editorial content, the spirit is pragmatically progressive and experimental.
